Beautiful, joyous childhood! When the soul fresh from heaven holds communion with the spirits of its native element. When cherab faces gather round the cradle of the babe, and as sleep falls like dew upon its eyelids, whispers of undying fountains, fadeless flowers, and spirit music.

What glowing visions throng the young heart, bounding like glad creatures through its bright chambers, with garlands around them their fairy-feet beating time to the lute and viol of their own happiness.

The future is like a rainbow tinted dream, where angels are ever ascending and descending, and the child throws back his clustering hair and with dimpled lips apart and eyes wide open listens entranced to hope's syren song, and without a fear darts along the shining treacherous path of

But a blight soon falls upon the spirit. the false vision soon dissolves, and like the mirage of the desert cheering the heart of the traveller with deceitful views of cool lakes, with the domes and minarets of the far distant city mirrored upon its bosom, he sees instead the waste alone spreading around, and sinks faint and disparing in the

Phantoms crowd his pathway tempting his untried spirit. Love with timid glance, and cheeks glowing as the heart of a wild rose, her sunny curls falling in a golden cloud around her, steals across his footsteps. He clasps to his heart the beautiful delusion and for the time a rainbow spans the earth, a soft spirit melody plays through his heart strings, "But as charm by charm unwinds that robed his idol," it fades as the light of day, or the gorgeous pageantry of sunset. Or if the spell continue, death parts the curls from the brow of his young wife, looks into her smilink eyes, and soon he weeps in anguish over his early dead .-Pleasure lays her caressing hand upon his forehead, and with her basalish eyes burning into his very soul whispers of forbidden joys, he crouches amidst the votaries at her eet, follows her mad footsteps, until the Mother who pressed kisses upon his pure haby brow, or murmured her low lulaby over his cradle, scarce recognizes in the wreck he has become, the fair pearl that slept upon her bosom.

Or the spirit of unrest flaps her broad pinions over him, and like Noah's dove he goes forth upon the wide ocean, or roams in foreign lands, bearing in his heart the "olive branch" of home memories, and "olive branch" of home memories, and box and made an application to my face. To my home affections. The noblest monuments surprise the pain soon absted, and in a week's time of art are around him. Proud palaces, with cool deep gardens with fountains in the midst-sparkling in the sunlight like gems thrown in sport by naiad hands. He wanders down the dim aisles of old cathedrals, while the mystic light streaming through stained windows, lights up his face with spiritual beauty-and

"The billowy music of the organ sweeps Like the vast anthem of uplitting deeps-

But he turns wearily away, and the scene of his childhood steals like music at night time, back on his memory. He looks again upon the low white cottage half covered with clinging ivy-the old trees shading it, with sunbeams hid like bars of gold among their dark leaves—the public if judged best to serve the cause of bumanibroad lawn wherewith hoops and ball he ty. passed the "fawn footed h muring of the little brook falls pleasantly upon ais ear, and he stretches forth his hand caressingly, as if his noble hound bent hand caressingly, as if his noble hound bent M'Allister & Co., are written with a pen on every label.

Steals to the rose drapined window and looks lovingly in upon his fair young sisters while their low laugh and song thrill upon his heartstrings. The shadows deep-en, and the twilight falls around, and still he muses with a pleasant smile playing round his lips. But the spell dissolves and he starts up with a wild yearning in his heart to gaze upon familiar faces, and min-

gle with the loved household group.

Glory with majestic mien and laurel wreathed brow, points to the battle field. The youth rushes to the conflict, and, soon his sword is bright with the blood of one who never injured him, one for whom perchance in a far land a wife watches and weeps for his coming, or a dying Mother pines for a last look upon the face of her brave boy. The applause of the multitude falls as incense around the hero, but in the still midnight, alone with his rebuking angel, his "clustering honours," press palelike upon his spirit and he weeps for the innocence of his guileless childhood. Ambition turns the heart to ashes-"Friendship is but a slow-awaking dream.

Troubled at best-seach gaud and triumph of earth fails to satisfy the immortal spirit. It still retains a sweet memory of holier home, and "longs to gather its wings and like a rushing thought, stretch onward, star by star up into heaven." We make gods of clay, place them upon the heart shrine and summon the dwellers of the inner temple to fall down and worship, when angels are beckoning them to the alters of the celestial city. Pale spectres glide around us and with noiseless wings sweep away our cherished hopes, and garment memories, and "happiness falls cold

and dead upon its own threshold." But Faith gathers her white mantle round us, and with her meek, earnest eyes turned heavenword points out the only refuge for the world weary spirit, while a "still small voice," whispers "Come unto me, all that are weary, and heavy ladened, and I will give you rest." INDIA RUBBER FOR RAILROAD TRACKS. India rubber, with a mixture of metallic substance, has recently been brought into use on railroads, by being placed under the bearings of the rails upon the chairs and sleepers. It is a relief to all the finer parts of the machi. nery of the locomotive, and lessons the frietion of the cars. Several miles of the Stonington road, where it approaches the new terminus at Providence, have been laid in this way. The Long Island Railroad Company are also laying several miles.—N. York Jour. Philadelphia, 10 me., 13th, 1846 To T. B. Peterson,—Having been requested to give my opinion on the merits of M'ALLIS TER'S SALVE, I am willing to enumerate some of the benefits which I have experienced in the use

of the article.
In the spring of 1845, I had an attack of Erysipelas in my face which became very painful, and extended into one of my eyes, being attended with fever, my distress was great and I began to be fear-

ful of losing my eye.

Although not much of a believer in what is ommonly called quack medicines, I purchased a it was entirely cured, and I firmly believe that it was the salve, under Providence that cured me. From that time to the present, I have used the atticle as accasion required, and in every case where I have used it, I have found a decided benefit.

At one time, on going to bed at night, my throat

was so sere that I swallowed with difficulty, but

I have used it in case of burns, bruises, sprains, and flesh cuts, all with the happiest effects, and one case of potsoning by a wild vine in the woods, has been dried up and cured by a few applications. From my own experience, I would strongly re-commend it to all, as a cheap, convenient, family

SIX YEARS AGO

THE children began to cry for Sherman's Lo zenges. The noise was not no loud at that ime, but it has kept increasing ever since, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathises with the little sufferers, and very much regre's that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of

WORM LOZENGES, he has entered into arrangements for enlarging his Manufactory, by means of which to thinks he will be able to supply the demand. And the same pains and care will be taken, that these celebrated Lozenges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he commenced the manufacture of the Worm Lozenges, that they would supersede the use of every other vermifuge, as the Lozenge is very pleasant to the taste, speedy in its effects, as well as certain, and the quantity required to effect a perfect cure, is very small. These properties, in connexion with the feet that they are sold for 25 cents per box, thus placing them in the reach of the poorest man in the land, has not only caused them to take the place of every other vermifuge ever offered, but al so rendered them popular to the community.

COUGH LOZENGES continue to cure Coughs, Colds, Consumption, Asthma, shortness and difficulty of Breathing, and other diseases of the Lungs, with the same facility they did on their first introduction, and the people have now become persuaded by actual exprisence, that on the accession of a slight cold, they have only to step to either the Dr's, office, or one of the Agents, and obtain a box of his Cough L. zeoges, which are very convenient to carry in the pocket, and to take a few through the day. By pursuing this course a cure is often effected in 24 hours, and the patient about his business. So great is the celebrity of the Lezenges, that thousands of persons sho have used them, and become acquainted with

their effects, will never be without them. POOR MAN'S PLASTER has cured more cases of Rheumatism, Pair in the Back, Side and Chest, Lumbago and Weakness, than any application that has ever been made. As the colclaits of the Plaster has increased hardrods of unprincipled rascals have attempted to counterof unprincipled rascals have attempted to counters feit it, and polm it off upon the community as the genuine. Bewase of Deception. Remember that the true and genuine Plaster is spread upon reddish paper made expressly for the purpose, and in every case the signature of Dr. Sheuman ipoint d upon the back of the Plesser, and the whole secured by Copy Right. None others are genuine. Therefore when you want a real good Sherman's Poor Man's Plaster, call at the office, 106 Nassau

They have many advan-tages over the common pump, among which are

They are as constructed that mischievous persons cannot spoil their action by introducing nails or spikes or any other substances among the valves. as ie often done with other pumps, thereby rendering them useless till overhauled. They are warranged to be perfectly secure from frost. They are Fire about the premises on which they are crected, by simply attaching a piece of hose, thro which they will force water to any part of, or over, a three story house. They are particularly adapted for very deep wells, as the leverage can be so re-gulated that a child of six years old can with the greatest case draw water with them from the deepest wells. The objection so justly urged by many, that water is spoiled by standing in pump logs. is entirely obviated in this pump, and fresh water can always be as surely obtained as when drawn with a bucket. In situations where it is nece-sary to raise or force large quantities of water to great distances for supplying boilers in mills, furnaces. &c., these pumps are invaluable, as they can be made of any size, and capable of throwing from 15 to 1000 gallons per minute.

And to crown all, they can be sold as cheap a the cheapest.

The subscriber has spent the last year in axpense. rimenting upon and perfecting his pumps, and now brings them before the public with the follest confidence that they will be found to answer his description. The aversion to taking medicine is most effect tually removed by CLICKNER's VEGETABLE PUR-DATIVE PILLS, being completely enveloped with a coating of pure white Sugar, (which is as distinct from the internal ingredients as a nut shell from the kernel) AND HAVE NO TASTE OF MEDICINE, But are as easily swallowed as bits of candy Moreover they neither nauscate or gripe in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region. Thus, if the Liver be affected, one ingredient will operate on that particular organ, and, by cleansing it of an Excess of Bile restore it to its natural state. Another will operate on the B'ood, and remove all impurities in its circulation; while a third will effectually expel whatever impurities may have been discharged into the stomach, and hence they STRIKE AT THE ROOT OF DISEASE, remove all Impure Humors from the body; open the porce externally and internally; separate all foreign and observious particles from the chyle, so that the blood may be thoroughly pure—thus secu-ring a free and healthy action to the Heart, Lungs and Liver; and thereby they RESTORE HEALTH K-VEN WHEN ALL OTHER MEANS HAVE PAILED.

DR. LIBEOT S Vegetable Universal Pills, The only known Medicine that at the same time purges purifies and strengthens the system.

Luxuon, July 7, 1846. Losnon, July 7, 1846.

R LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substaces, purifying and purging, while the other is strengthesing the system. Thus those pills are at the samitime tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no re-action. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all toxious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nauses or sickness attending the operations of this most excellent of me licines, which never strains or tortures the digestive functions, but causes them to work in a per-fectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsa-parilla, united as it is with other ingredients, to parilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations.

SCROFULA AND GLANDULAR AFFEC-

TIONS.
Scrofula is said to be heriditary, the infant receiving from its parents the needs of this diseaswhich increases with its years, if neglected and not submitted to frequent purification with Dr. SWEETSER'S PANACEA. The glands are placed in the corners of the body, and our of the way of direct communication; their real use is a subject on which much difference of opinion prevills; it suffices us to know that when in a diseased state, they are capable of being purified and cleansed by a long course of Dr. SWEETSER'S PANA-CEA, which restores them to sound and proper action. Scroful-us persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perse crance, they will ever cure heredit iry disease.

In cases of JAUNDICE. ASTHMA. LIVER COMPLAINTS, TIC DOLOREUX RHEU MATISM OR RHEUMATIC GOUT, DE SWEETSER'S PANACEA cannot be too high ly extelled; it searches out the very root of the disease, and by removing it from the Blood makes

It re moves from the blood, stomach and bowels, at those foul scrid burning humors, which are the cause of Piles and Costiveness, and by strengthening the digestive organs, improves every part of the strength body.

These diseases are caused by the stomach and bowels being choked up with viscid alimy matter the air which enters them cannot escape until force by some contraction of the stomach to expel it hence the cause of pain. A few doses of Dr SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN. Parents will find the PANACEA a valuable medicine for their children, keeping their bodies ir a healthy condition, thereby assisting their growth children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and
